# Our Expertise

## Our Expertise: Your Competitive Advantage.

At Caplines, specialization is what sets us apart in a highly competitive market. With decades of experience, we have developed a strong focus on West African trade lanes, offering reliable connections to key ports across the region. Whether you are shipping a full container load or need to optimize costs through groupage (LCL) solutions, our team ensures that every shipment is handled with precision and care.

Beyond sea freight, we provide multimodal transport, combining road and maritime services to guarantee flexibility, speed, and reliability for your supply chain. For shipments that require out-of-the-box solutions—such as oversized cargo, urgent deliveries, or complex customs procedures, our experts design tailored strategies to ensure seamless execution.

With Caplines, you don't just move goods—you gain a competitive advantage through specialized routes, smarter solutions, and the confidence of working with a logistics partner who truly understands your needs.
